

SAGAR PATHAK

Full-Stack Developer | React | TypeScript | JavaScript

Rishikesh, Uttarakhand, India | +91 87559 03705 | pathaksagar264@gmail.com
github.com/Sagar264offici | linkedin.com/in/sagarakanoone | sagar-horizon.vercel.app

PROFESSIONAL SUMMARY

Final-year BSc Information Technology student with 2+ years building and deploying 8 live web applications with React, TypeScript, JavaScript, REST APIs, and serverless deployment on Vercel. Experienced in real-time state management (Upstash Redis), interactive 3D with Three.js, responsive component-based UI, and CI/CD with Git and GitHub. Seeking a Frontend / Full-Stack Developer internship to ship user-focused, production-grade web applications.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3, Java, C, C++

Frontend: React.js, Responsive Design, Component-Based UI, CSS Animations, Cross-Browser Compatibility, Web User Interface Design

Backend & Data: Node.js, REST APIs, Upstash Redis, MongoDB, Hono, Real-Time State Management, Serverless Architecture

3D & Media: Three.js, 3D Camera Systems, Spatial Interaction, Android, Media3

Tools & Deployment: Git, GitHub, Vercel, Linux, npm, Vite, CI/CD, Object-Oriented Design, Technical Documentation

WORK EXPERIENCE

Full-Stack Developer - Independent Projects, Rishikesh, India

01/2024 - Present

- Architected and deployed **8 production web applications** on Vercel with React, TypeScript, and REST APIs, serving real users with responsive mobile-first layouts and zero-downtime CI/CD releases.
- Built **SPDC Quiz Battle**, a real-time multiplayer quiz platform supporting concurrent team play with live score tracking and serverless state persistence via Upstash Redis.
- Developed interactive **3D cricket field simulation** with Three.js featuring orbit camera controls, spatial player positioning, and real-time navigation.
- Own the full project lifecycle - requirements, UI design, development, testing, deployment, and documentation - using Git and GitHub version control.

PROJECTS

SPDC Quiz Battle - React, TypeScript, Upstash Redis, REST API, Vercel

Live: spdcquiz.vercel.app | Code: github.com/Sagar264offici/QuizBattle

- Engineered real-time quiz state, team-based play, and live score tracking with serverless persistence; state-driven UI updates across concurrent clients.
- Designed and consumed REST APIs for questions, answers, and scoring with clean, reusable component architecture.

Cricket Field Simulation - Three.js, TypeScript, React, Vercel

Live: cricket-field-simulation.vercel.app | Code: github.com/Sagar264offici/Cricket_Field_Simulation

- Built an explorable 3D cricket field with controllable orbit camera, spatial player positioning, and real-time navigation.

NightLight - Android, Java, Media3, TypeScript, Hono, MongoDB

Live: nightlight-music.vercel.app

- Built an immersive music experience with mood-aware recommendations, smart shuffle, lyrics view, background playback, playlist importing, and listen-together sessions.

Business Websites - React, TypeScript, CSS, SEO, Vercel

Live: rishikesh-greens-cafe.vercel.app | vikas-institute.vercel.app

- Delivered responsive, mobile-first sites (cafe + bilingual Hindi/English institute portal) with course catalogue, SEO metadata, and structured data.

EDUCATION

Bachelor of Science in Information Technology - Sri Dev Suman Uttarakhand University, Uttarakhand, India

08/2024 - Present (Final Year)

- Coursework: Web Development, Object-Oriented Design, Web Services (REST/SOAP), C, C++.
- Class 12 - Physics, Chemistry, Mathematics (PCM) | 2023 - 2024

CERTIFICATIONS

Building Interactive 3D Experiences with Three.js | Modern React and TypeScript Patterns
